

BISATO TABLE

LAVARA proudly brings you the MELT collection. Designed by Leo De Carlo, It is a tribute to the industriousness of Murano and the lakeside nature that surrounds the island. Inspired by the technique of glass casting that takes place in the furnaces of Murano, through the irregularity of the fusion, MELT furniture takes on a soft aesthetic in its shapes and organic in its surfaces.

Through the application of colored veils and silvery reflections, achieved through the craft skills present in Arte Veneziana for, shapeless and iridescent objects come to life.

CUSTOMIZE

Turquoise Gradient

Partially Silvered

Midnight Gradient

Handmade Furniture

Baked glass top and legs in two layers with irregular edges.
The entire piece is varnished in gradation from blue to transparent, with partial silvering on the back.

Handmade Furniture

The decoration of Melt glass is achieved by applying different layers of colour, silver and primer. The final effect can be transparent or non-transparent, depending on the intended use of the product. In general, non-transparent tops are those that are applied on third party surfaces (furniture, walls, etc.) as the non-transparency allows the glues used to mount the pane to be hidden.
